A DECADE OF INSPIRING ACTIVISM

The Wild & Scenic Film Festival inspires people and unites communities to heal the Earth. A program of the South Yuba River Citizens League, the festival is located in historic downtown Nevada City, California — just an hour's drive from Sacramento.

The name "Wild and Scenic" honors SYRCL's successful campaign to achieve state Wild and Scenic status for 39 miles of the South Yuba River. This status protects the river by preventing construction of dams or other projects that would interfere with its free-flowing nature. The campaign started with a small group of concerned citizens, and this same spirit of activism is what inspires the festival.

Wild & Scenic celebrates its 10th anniversary this January. Environmental and adventure films that illustrate the Earth's beauty, the challenges facing our planet and the work communities are doing to protect the environment are featured throughout the three-day event. Through these films, Wild & Scenic both informs people about the state of the world and inspires them to take action. At Wild & Scenic, filmgoers are transformed into a congregation of committed activists dedicated to saving our increasingly threatened planet.

The festival is a call to action — action that begins with the festival and continues in your community. Wild & Scenic raises resources and awareness for SYRCL's initiatives to recover California's wild salmon and protect and restore the Yuba River. And SYRCL's Film Festival On Tour serves as a national platform for local environmental advocacy.

Join top filmmakers, celebrities, leading activists, social innovators and world adventurers for the Wild & Scenic Film Festival January 13 - 15, 2012

ON TOUR: WHERE DO WE GO FROM HERE?

FOR THE FILMS FEATURED AT WILD & SCENIC, IT IS JUST THE BEGINNING. THE OPENING FESTIVAL IN NEVADA CITY KICKS OFF OUR NATIONAL TOUR TO MORE THAN 100 CITIES ACROSS THE COUNTRY.

The films are too good, and the messages too powerful, to not let them roam across the country. Tour venues are hosted by a variety of environmental groups, outdoor retailers, nature centers, museums and universities. Together, they form a grassroots network connected by a common goal of using film to inspire activism! SYRCL's Wild & Scenic On Tour has sparked a movement ... more communities are harnessing the power of film to galvanize citizen action. As one host partner, Gabe Wigtil of the Coalition for Sonoran Desert Protection, described, "To see the faces of people light up and become energized after watching the films is a great way to remind any organization of the important work that we are all doing." The touring program is a turn-key operation.

Host partners purchase our festival kit, orienting them to our guidelines and procedures, and creating a similar festival experience whether in Boston or Portland. It's both easy and affordable! The tour is made possible by the generous support of our National Partners who help bring these inspiring films to communities across the US. With each tour venue, they are helping to build an activist base to share in our common goal for a healthier planet.
